| • | New transfer | | 3.500 | 7/ |
| Totals | | 3.653 | 3.500 | 6.866 |

This leaves the LRIT fund over appropriated. It is uncertain how the Executive would manage this shortfall under these conditions. If the system is not done, then the revenue is overstated. One of these amendments (39 or 36) needs to be adopted.

^{*} language confusing, but this is how it is currently interpreted on the balance sheet

| Amendment HB64539.acd - fully fund DOR Imaging | | | | |

| HHS MMIS System | Voided transfer* New transfer | - | | appropriation. The account is in balance. |
| Totals | | 3.653 | 6.866 | 6.866 |

This deletes the changes in transfers in HB 645 and balances the LRIT account. In addition, the DOR Imaging System is clearly funded and the revenue can be counted on.

| Amendment HB64536.acd - Remove DOR Imaging | | | | | |

| HHS MMIS System | Voided transfer* New transfer | • | (3.500) 3.500 | | |
| Totals | | | 3.500 | 3.500 | |

This deletes the appropriations in HB 10 through an amendment in HB 645 and leaves the voided transfers in HB 645. It clearly eliminates the DOR Imaging System and revenue associated with it.

Explanation - These amendments eliminate the coordination instruction related to and the transfers to the Long-Range Information Technology Projects fund which replace the HB 10 general fund transfers. Consequently, two HB 10 LRITP projects, the DPHHS Medicaid Management Information System project and DOR Efficiency in Imaging project, will be funded through a transfer in HB 10 (funded with a total HB 10 transfer of \$6.9 million, an increase of current LRITP funding of \$3.4 million) and the projects will not rely on the transfer from HB 645 (reducing the general fund cost of HB 645 by \$3.5 million).
